

REMOTE LEARNING

St. Fillan's Primary School

The staff in St. Fillan's Primary School are committed to ensuring children can continue their education at home. Teaching Staff use **Google Classroom** and a variety of digital resources to provide activities and learning opportunities remotely with children (individuals, groups, classes).

Using **Google Classroom**, teachers will communicate with your child to:

- set and collect learning tasks.
- set differentiated learning tasks where appropriate.
- make announcements.
- store classroom resources.
- allow students to interact where possible.

Teachers will:

- log into the Google Classroom Platform between 9am-3pm.
- use Google Classroom to communicate with your child to set and collect learning tasks; set differentiated Learning Tasks where appropriate; make announcements; store classroom resources and allow students to interact when possible.
- focus on Literacy, Maths, Health & Wellbeing and RERC as well as provide a series of opportunities for other curricular learning.
- give feedback, either individually or to the whole class, appropriate to tasks.

Teachers will also be supervising key worker children in the school building and will not be able to respond to questions/provide feedback etc. on that day.

Learners will:

- engage with Google Classroom on a daily basis.
- complete an appropriate amount of work each day.
- most children should be able to work with a degree of independence.
- have their resources (jotters, pencils, device charged etc.) ready for use each day.
- complete and submit tasks on the day that they are set.
- start each day afresh with new tasks set.

Parents and Carers will:

- support your child to establish a consistent routine and structure based on what works best for your family.
- ensure that your child logs into Google Classroom and Glow email daily.
- support your child to submit the work tasks via Google Classroom.
- remind your child of the importance of internet safety and highlight any concerning issues.

Communication from the School

- Newsletters will be emailed and posted on school website with updated information.
- Twitter, text and email will be used for regular communication.
- Parent communication should be through the [Parent Contact form](#). (Google Classroom should not be used by Parents/Carers to contact their child's teacher.)
- Our Senior Leadership team will be in contact with families through a variety of platforms.

We recognise that some families may have siblings sharing devices which may impact on the times they are able to complete work. We also appreciate that Parents/Carers may also be working from home. We are committed to doing our very best for all our children and families during these unprecedented times. We will try to provide as much support as we can.
